THE NEW ALL DOUBLE HOLLYHOCK GLAD

The first new all double Glad ever introduced. This is not a freak like some other so called doubles, but a Glad with as perfect a plant and spike as Spic & Span, and as it grew for me in ordinary field culture, just as dependable.

Named VIOLA and introduced by Charles Auchey, this Glad is as full and double as a hollyhock, is a light lavender, grows 4 foot, 15 to 18 florets and fine, healthy, rugged plant. Mr. Auchey has dozens of other seedlings, (I have grown 3 others), all fully double. These are a hybridist's dream. 1000 bulbs only for sale this year.
